POKER

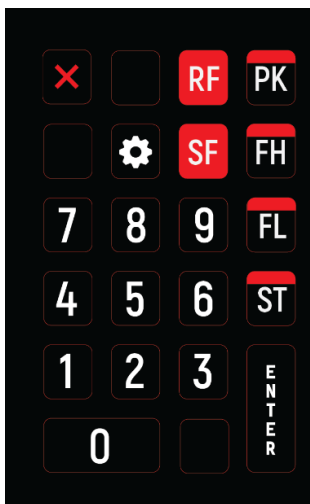

PROGRESSIVE JACKPOT

LION SERIES

34'' DISPLAY

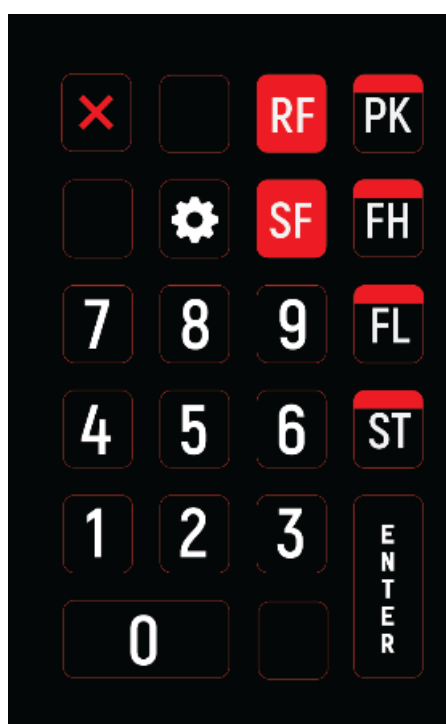

Two kind of Jackpots displayed:

1. Progressive Jackpots (won by Royal Flush and Straight Flush) are displayed at the top, on the red background. They are growing up at 1% of total bonus bets. For example, if the bonus bet is 1 euro, jackpots are increasing at 0.01 euro. All tables' displays receive new amount and winning information via the server PC.

2. Fixed bonus payouts (won by Poker, Full House, Flush, and Straight) are below the Progressive Jackpots.

To enter the bonus bet the dealer should press how many boxes have bet and confirm with ENTER. For example: if bonus bets were placed on 3 boxes then dealer should press: 3, ENTER.

To enter a win the dealer should press all winning jackpots and confirm with ENTER. For example if Poker Jackpot appears on one box and Flush Jackpot on another then the dealer should press: PK, FL, ENTER.
